

Full Stack Developer with 4+ years of experience building production-grade web applications using React, Next.js, JavaScript, Node.js, and MongoDB. Experienced in scalable backend architecture, REST APIs, document processing, AI-based data extraction, frontend development, integrations, and performance optimization.

EXPERIENCE

Senior Developer, VLink India Pvt. Ltd.

Dec 2025 — Present

- Designed backend architecture and developed Node.js services for document processing, data extraction, web scraping, and application workflows.
- Built PDF/DOCX processing pipelines using pdf-parse, pdfjsLib, and Mammoth, integrating AI-based extraction to identify required information from unstructured documents.
- Developed data scraping and transformation workflows using Node.js and npm libraries to collect and process data from external sources.
- Implemented authentication, authorization, and RBAC including user creation, role management, permission assignment, and access-controlled workflows.

Full Stack Developer, HailGro Pvt. Ltd.

Nov 2023 — Nov 2025

- Built and deployed a production-grade web platform copartner.in, optimized for performance, responsiveness, and scalability.
- Designed and developed RESTful backend APIs powering role-based dashboards and automation workflows.
- Implemented secure payment integrations using Razorpay and PhonePe with webhook-based verification.
- Developed responsive frontend interfaces and reusable components for client-facing and internal applications.

Full Stack Developer, Zestify

Apr 2022 — Nov 2023

- Built and maintained Node.js and Express.js backend services handling request validation, business logic, and error handling.
- Designed RESTful APIs with pagination, structured error responses, and frontend integration.
- Implemented JWT authentication and role-based access control (RBAC) for admin and internal systems.

PROJECTS

CodeCraftedAI Website Platform

GitHub

Tech: React.js, Node.js, MongoDB, Express.js, JavaScript, REST APIs

- Developed reusable React components and integrated frontend applications with backend services and external APIs.
- Built responsive interfaces with a focus on maintainability, performance, and cross-device compatibility.
- Implemented full-stack application workflows connecting frontend components with REST APIs and backend services.

- Developed an interactive analytics dashboard for visualizing and managing structured business data.
- Implemented reusable dashboard components and integrated REST APIs for dynamic data-driven views.
- Designed modular frontend architecture with a focus on maintainability, responsiveness, and performance.

SKILLS

Frontend	React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Component-driven Architecture
Backend	Node.js, Express.js, REST APIs, WebSockets, MongoDB, MySQL, JWT Authentication, RBAC, Database Indexing, Query Optimization
Data & AI	PDF/DOCX Parsing, pdf-parse, pdfjsLib, Mammoth, AI-based Data Extraction, Web Scraping, Data Transformation
DevOps & Tools	AWS, Nginx, S3, EC2, Docker, Vercel, Render, Git, GitHub, Postman, Webhooks

EDUCATION

Bachelor of Technology, Computer Science, Maharshi Dayanand University

GPA: 6.8/10

Aug 2019 — May 2023
